WHAT WE OFFER

Service Packages

Engage us for the whole journey, or for a single stage

Every book is quoted on its own, because no two books need exactly the same work. The packages below are the common starting points — choose the one that fits where your book is, and we will shape the scope to your project.

HOW IT WORKS

How pricing works

- **Quoted per project.** After our first conversation we send a written quote with the scope and the investment laid out clearly — no surprises.
- **Built from the work your book actually needs.** The price reflects the stages in scope and the size and state of your manuscript, not a one-size-fits-all rate.

- **Whole journey or single stage.** Take the full Manuscript-to-Market path, or engage us à la carte for just the stage where you need help.
- **Hard costs are passed through.** Out-of-pocket items — ISBNs, proof copies, any licensed art — are itemized separately so you see exactly what they are.
- **Nothing begins without your sign-off.** You approve the scope and the quote before any work starts, and you approve at every stage as the book moves.
